GlobalCoalSource

Independent commodity sourcing partner — connecting global buyers with US coal & petcoke and India-origin iron ore & sponge iron.

WHAT WE DO

We match international buyers with verified suppliers across two major supply basins. You share your specifications and volume — we line up supply, confirm indicative pricing, and coordinate specifications, logistics, and commercial terms through to closing.

Products we source

- US thermal coal (export grade)
- US metallurgical coal
- US petroleum coke — fuel grade (US Gulf Coast)
- India-origin iron ore
- India-origin sponge iron / DRI

WHO WE SERVE

steel mills, power plants, cement and aluminium producers, commodity traders, and industrial buyers across South Asia, the Middle East, and Southeast Asia.

How we work

1. Share your specs and target volume.
2. We match verified supply and confirm indicative pricing.
3. We coordinate specifications, inspection, logistics, and commercial terms.
4. You close with confidence. Commission-based — no upfront fees.

Why work with us

- ✓ One point of contact across US and India supply basins.
- ✓ Spec-first matching: we start from your technical requirements, not a price list.
- ✓ End-to-end coordination: inspection, shipping terms, and documentation handled.
